## EXECUTIVE SUMMARY

---

## Introduction

The School Construction Authority is pleased to release the Final Report to the FY2010–2014 Five Year Capital Plan. This Plan, which ended June 30, 2014, significantly improved the environment at schools, and made great strides in reducing overcrowding and improving the quality of our existing facilities. Over 27,200 seats were constructed or are currently in process, and projects at 43 buildings that experienced damage because of Hurricane Sandy are underway or complete.

The \$10.98 billion Plan includes \$521 million made available through the City Council, Mayor/Council funding, and Borough Presidents, and this Report provides information on the status of projects as of June 30, 2014. The Appendices attached to this Report provide specific cost and schedule information for the projects undertaken during the 2010–2014 Plan.

This Capital Plan proposed an aggressive program of new capacity and investment in our existing assets. The new capacity seats serve the needs of our school children in all five boroughs. Of the over 27,200 seats, more than 24,500 serve our elementary and middle school students, and nearly 2,700 seats serve high school students throughout the City.

Improvement projects touched all major elements of our buildings, including exterior work to secure watertight environments, internet-protocol digital video surveillance systems (IPDVS) installations to ensure safety, low-voltage electrical systems (such as fire alarms and public address systems), and internal building enhancements (such as smartboard installations) to enhance instructional technology in our schools. A major initiative for this Plan was the inclusion of funding to remove any PCB containing lighting fixtures.

In addition, this Plan provided funding to begin the removal of Transportable Classroom Units (TCUs), and the 2015–19 Capital Plan continues the work and includes funding to remove remaining TCUs.

This Report maintains the same format as the February 2013 Adopted Amendment and is divided into two main areas:

- **\$3.657 Billion for Capacity:** The Capacity Program included elements of the Plan that resulted in new or replacement capacity for our system. The three elements of this category included:
  - **\$3.054 billion for New Capacity** — As in the previous Plan, we reevaluated the capacity needs annually to reflect any sustained changes in trends through the amendment process.

- **\$397 million for a Facility Replacement Program** — This program funded the replacement of several facilities where leases expired during the 2010-14 Capital Plan. In some instances, a landlord did not renew a lease despite our best efforts to offer a market rate renewal proposal. In other instances, we chose to replace a space that we determined unsatisfactory for instruction.
- **\$206 million for Partnerships with Outside Organizations** — Outside partners provided valuable private-sector resources to support the construction of buildings for public school students. The funding was used to address areas of capacity need wherever possible.
- **\$7.326 billion for Capital Investment:** The needs identified under this Plan were based on several factors, including the annual Building Condition Assessment Survey (BCAS), which provides an evaluation of the condition of our building systems on an annual basis. We use the recommendations made by BCAS in conjunction with the advice from facility personnel, school administration, and the community in developing the projects included in the Capital Plan. We also develop projects for the Plan based on programs developed with the DOE. We have made great strides to improve the quality of our school buildings, and the scope and size of our building inventory requires that we continue investing capital to maintain and improve the condition of our buildings.
  - **\$3.488 billion for the Capital Improvement Program (CIP)**, which includes exterior and interior building upgrades and other necessary capital repairs to our buildings.
  - **\$1.312 billion for School Enhancement Projects** designed to enhance the educational opportunities for our children. This category includes funding to support technology enhancements, realignment of existing facilities to better suit instructional needs, physical fitness projects, science labs, accessibility and other necessary improvements.
  - **\$2.005 billion for Mandated Programs** such as remediation and building code compliance projects, insurance, and emergencies.
  - In addition, funding in the amount of **\$521 million** has been provided from the City Council, Borough Presidents and Mayor/Council sources.

**PUBLIC REVIEW PROCESS:** An initial Plan and subsequent annual amendments were issued and then adopted by the City Council in June of each year. Each annual amendment incorporated additional funding from City Council and Borough Presidents. Allocations were later made by the City to account for Hurricane Sandy.

Community Education Councils (CECs) play an important part in the development of the Capital Plan. Beginning in the 2005–2006 school year, the DOE established a process by which CECs could provide input on specific school conditions. This input has become an important part in developing the Capital Plan, and as a result of CEC and City Council input, capital projects were reviewed and incorporated into this Plan. We appreciate the vigilance of our Councils and the enormous effort expended throughout the process.

## NEW CAPACITY

---

# Capacity Program

## Introduction

---

SUMMARY
Final Report
\$3,657.3 mm
2013 Adopted Amendment
\$4,458.5 mm

This FY2010 – 2014 Capital Plan leveraged dollars and resources to create new seats for New York City public school children and to replace seats no longer available. Under this Plan, the construction of new schools was undertaken not only with capital resources but also with private developers, not-for-profit entities and charter schools. Capacity was expanded by renovating leased facilities and constructing additions and stand-alone facilities on existing DOE property.

This Plan provides funding for the development of seats under the following categories:

- New Capacity
- Replacement Seats
- Partnerships with Outside Organizations

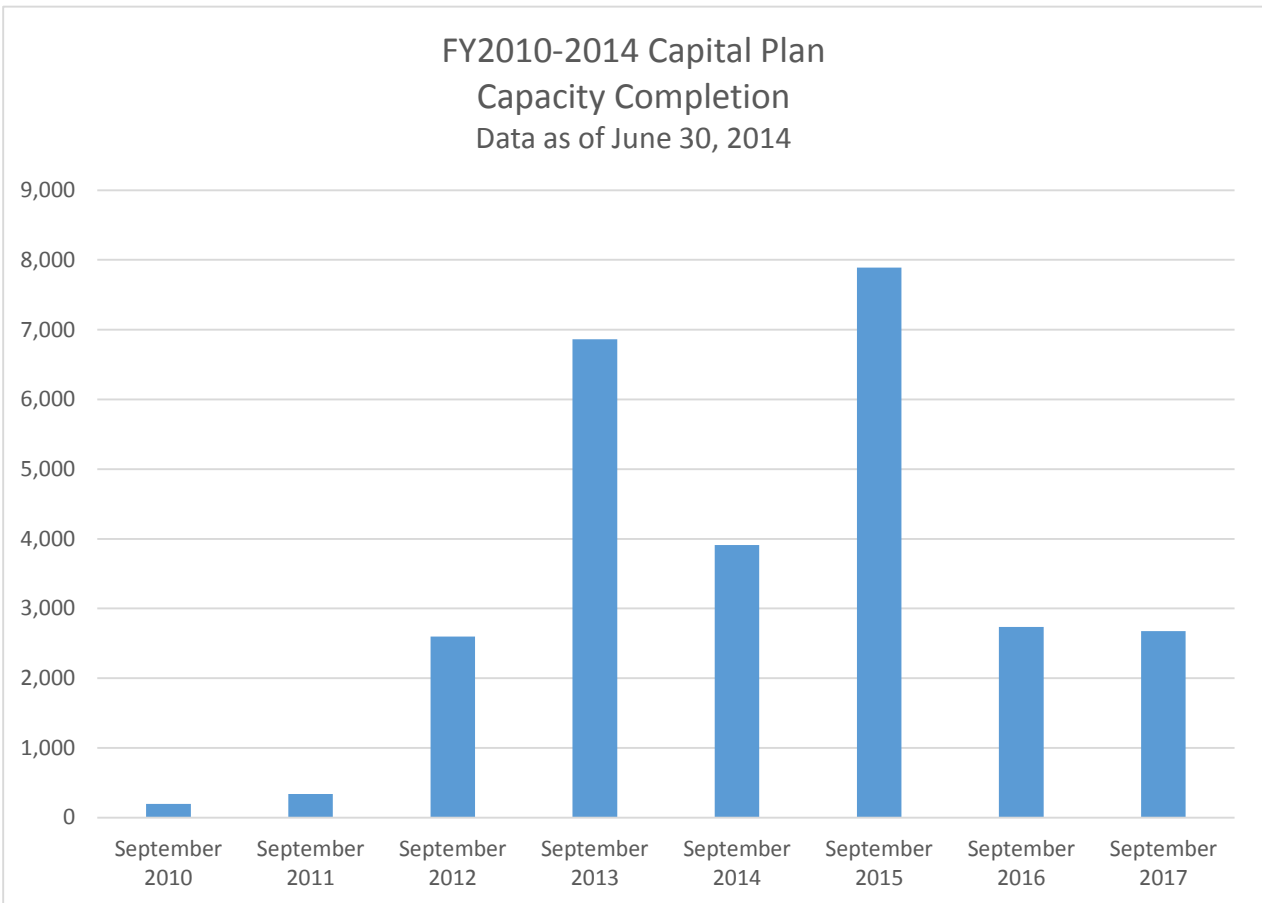

## New Capacity Program

SUMMARY
Final Report
\$3,054.1 mm
2013 Adopted Amendment
\$3,559.0 mm

This Plan devoted \$3.1 billion to New Capacity projects. Through this program, over 27,200 seats were created. Funding in this program also facilitated the beginning of the TCU removal program, which continues into the next Plan. It is important to note that the 2015-19 Capital Plan allocates funding for the removal of all remaining TCUs throughout the system.

## New Capacity Program Overview

The following charts provide the latest information on the completion schedule and costs for the over 27,200 seats that have been created through this Capital Plan.

<b>GRAND TOTAL INCLUDING SITE ACQUISITION*</b>											<b>\$</b>	<b>3,044.38</b>

\*District includes seats funded for design in this Plan and construction in the next Plan.

Notes: Number of buildings may vary depending upon availability and configuration of sites and appropriate leased spaces.

All dollar amounts represented in millions.

Excludes \$9.75 mm for potential site specific/environmental/code costs.

## Partnerships with Outside Organizations

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$206.3 mm</b>
2013 Adopted Amendment
\$210.0 mm

Partnerships with outside organizations allowed for targeted capital investments in areas with distinct educational needs.

Leveraging the social and financial capital that non-profit and private organizations bring to the public sector, collaborations were formed to support school creation, facilities, accountability, and leadership training. Attracting individual, community, and financial resources to the public school system fueled innovative solutions to meet the needs of schools. The allocation in this Capital Plan recognizes the added benefit and energy these partnerships bring to public schools.

<b>Project Name</b>	<b>District</b>	<b>Number of Seats</b>

CHALLENGE PREP CHARTER	27	300

## Facility Replacement Program

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$396.9 mm</b>
2013 Adopted Amendment
\$689.5 mm

Our leasing program was extremely successful in identifying sites for new school build-outs in districts where finding space to construct school buildings has been difficult. However, leases eventually expire, and despite our policy to offer market rate lease renewals for all leases that are in satisfactory condition and for which we need the capacity, some landlords choose to terminate our leases. In these instances, or when we determine that a site with an expiring lease is in unsatisfactory condition, we pursue a replacement site. The replacement site could be either another lease or a newly constructed building, depending on the real estate available.

Almost \$400 million was allocated to the Facility Replacement Program to provide for the replacement of 11 new sites. The seats were provided through new construction or alternative leasing opportunities — similar to new capacity. A list of the projects is included in the Appendices of this Report.

# CAPITAL INVESTMENT

---

# Capital Improvement Program

## Introduction

---

SUMMARY
Final Report
\$3,488.5 mm
2013 Adopted Amendment
\$3,163.7 mm

This Final Report summarizes the almost \$3.5 billion Five-Year Capital Improvement Program (CIP) for existing buildings, which consisted of a wide range of construction projects, including building repairs, system replacements, and reconfiguration of existing school buildings. Funding in this program also allowed us to repair and reconstruct buildings that were damaged as a result of Hurricane Sandy.

Efforts to improve the quality of school buildings have been effective, but the size of our inventory drives the continuing need to invest primarily in exterior elements, and this Plan emphasized exterior projects that safeguard existing buildings from water infiltration. Because of the size and age of our inventory, efforts to safeguard existing buildings from water infiltration will continue in future plans and, to the extent funding allows, additional resources will fund interior improvements such as upgrading lighting, converting boilers to cleaner fuel, and enhancing playgrounds as part of the City's PlaNYC effort.

Funding allowed us to address the most critical building elements: elements rated a "5" (poor) by the Building Condition Assessment Survey (BCAS). In addition, a small number of building elements that were rated "3" (fair) or "4" (fair to poor), but had deficiencies that may impact safety or the structure of the building, were included.

Capital Improvement Program Overview		
Program	Final Report	2013 Adopted Amendment
Exterior	\$2,091.5 mm	\$1,721.9 mm
Interior	\$1,283.9 mm	\$1,320.9 mm
Other	\$113.1 mm	\$120.9 mm
<b>TOTAL</b>	<b>\$3,488.5 mm</b>	<b>\$3,163.7 mm</b>

Any potentially dangerous building condition was immediately referred to the SCA for further evaluation. If necessary, sidewalk bridging was installed as a safeguard for the school community. If any condition required immediate attention, capital funding from the Plan's Emergency, Unspecified allocation was used to remedy the condition.

## ***Exteriors***

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$2,091.5 mm</b>
2013 Adopted Amendment
\$1,721.9 mm

Water infiltration is the single greatest cause of accelerated deterioration of existing facilities, and for that reason, this Plan focused on making schools watertight. The costs stemming from water infiltration include measures to correct damage to interior walls, floors and ceilings, and related asbestos and lead abatement. A portion of the funding in this program was also used to address repairs necessary to our buildings as a result of Hurricane Sandy.

The major components of building exteriors are roofs, parapets, windows, and masonry. If the BCAS ratings for any school indicated that any of these four major components were below "fair to poor" condition, then all the major exterior components rated "3" or worse were included in the project.

The funding allocated for exterior components is summarized below:

<b>Exteriors Overview</b>		
<b>Program</b>	<b>Final Report</b>	<b>2013 Adopted Amendment</b>
Exterior Modernization	\$1.1 mm	\$1.0 mm
Flood Elimination	\$229.4 mm	\$176.5 mm
Reinforcing Support Elements	\$44.6 mm	\$44.1mm
Reinforcing Cinder Concrete Slabs	\$14.9 mm	\$13.7 mm
Roofs	\$381.4 mm	\$282.7 mm
Parapets	\$354.2 mm	\$280.6 mm
Exterior Masonry	\$782.8 mm	\$663.8 mm
Windows	\$283.1 mm	\$259.5 mm
<b>TOTAL</b>	<b>\$2,091.5 mm</b>	<b>\$1,721.9 mm</b>

## ***Interiors***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$1,283.9 mm</b>
2013 Adopted Amendment
\$1,320.9 mm

The Five-Year Plan for interiors included capital work identified by a building's BCAS, work required to fulfill educational needs, Hurricane Sandy related damage, and work funded under the PlaNYC effort.

Some interior improvements included converting boilers that were using number 4 or 6 fuel oil to run on gas or number 2 oil. Conversions were targeted in areas with high asthma rates and funded through the PlaNYC initiative. Other components of the interior program included electrical upgrades, plumbing, low-voltage electrical systems such as fire alarms and public address systems, toilets, and mechanical systems that could be replaced rather than repaired based on the age, condition, and ability to repair.

In 2011, the SCA commenced a program to remove PCB containing lighting fixtures in more than 700 school buildings. Funding for this program is also included in the 2015–2019 Capital Plan. In May of 2013, the city entered into an agreement to accelerate the original 10-year plan that started in 2011 to complete the lighting replacements. The lighting funding in this program reflects the acceleration. We are pleased to report that the lighting replacement program was completed per the accelerated schedule in December 2016.

The major interior systems addressed in this plan are summarized below:

Interiors Overview		
Program	Final Report	2013 Adopted Amendment
Interior Modernization	\$9.3 mm	\$9.0 mm
Climate Control	\$93.8 mm	\$80.6 mm
Low-Voltage Electrical System	\$190.6 mm	\$229.6 mm
Lighting Fixtures	\$389.9 mm	\$276.7 mm
Interior Spaces	\$26.0 mm	\$17.6 mm
Cafeteria/Multipurpose Room	\$21.3 mm	\$18.1 mm
Air Conditioning Retrofit	\$9.8 mm	\$20.1 mm
Elevators & Escalators	\$30.1 mm	\$38.2 mm
Floors	\$34.5 mm	\$53.1 mm
Electrical Systems	\$68.2 mm	\$93.2 mm
Heating Plant Upgrade	\$164.9 mm	\$224.6 mm
Boiler Conversions	\$130.4 mm	\$146.4 mm
Kitchen Upgrades	\$17.1 mm	\$16.0 mm
Domestic Piping	\$42.8 mm	\$41.9 mm
Toilets – Staff	\$0.2 mm	\$0.1 mm
Toilets – Student	\$42.0 mm	\$43.8 mm
Safety Systems	\$13.0 mm	\$11.9 mm
<b>TOTAL</b>	<b>\$1,283.9 mm</b>	<b>\$1,320.9 mm</b>

## School Enhancement Projects

SUMMARY
Final Report
<b>\$1,311.9 mm</b>
2013 Adopted Amendment
\$1,617.8 mm

Technology and Facility Enhancement Programs were included under School Enhancement Projects in this Plan.

School Enhancement Projects		
Program	Final Report	2013 Adopted Amendment
Technology	\$607.1 mm	\$926.8 mm
Facility Enhancements	\$704.8 mm	\$691.0 mm
<b>TOTAL</b>	<b>\$1,311.9 mm</b>	<b>\$1,617.8 mm</b>

## Technology Enhancements

SUMMARY
Final Report
\$607.1 mm
2013 Adopted Amendment
\$926.8 mm

Technological Enhancements Summary		
Enhancement	Final Report	2013 Adopted Amendment
Classroom Hardware and Installation	\$0.00 mm	\$345.0 mm
School Building and Classroom Connectivity Cabling; Schools' Bandwidth Upgrade	\$68.5 mm	\$243.8 mm
Schools Unified Communication Infrastructure	\$47.3 mm	Combined above
School Network Equipment and Common Area Wiring; MDF/IDF Upgrade; Security	\$277.8 mm	\$90.8 mm
Wireless Technology Upgrade	\$146 mm	\$103.8 mm
School Application: Teacher/Student Class Relationships (Identity Management)	\$8.0 mm	\$27.7 mm
Learning Systems/Platforms	\$48.4 mm	\$43.5 mm
Business and Operations Applications	\$11.1 mm	\$72.2 mm
<b>TOTAL</b>	<b>\$607.1mm</b>	<b>\$926.8mm</b>

The funding in the 2010–14 Capital Plan allowed the DOE to continue incorporating and maximizing the impact of technology into all aspects of students' and educators' everyday activities. The Plan's technology initiatives married digital technologies with thoughtful architecture and learning solutions, challenging traditional ideas about where and how learning takes place.

Today, the DOE operates one of the largest networks within the education sector, and all active New York City public school buildings are wired for the Internet and have wireless environments. To build on this complex technological foundation, a major share of the Plan's technology allotment funded school buildings' technology infrastructure build-out. The funding level in this Plan supported the DOE's need to continue investing in upgrading school and classroom infrastructure.

Central to the DOE's comprehensive infrastructure model for learning is to enable "always-on" learning resources and equitable access to learning experiences for all students and especially students in underserved populations — low-income and minority students, students with disabilities, English language learners, and preschool-aged children. The infrastructure build-out included bandwidth upgrade for broadband access to the Internet of the less than 270 remaining school buildings that are on T-1 or Frame Relay technology. The infrastructure build-out also included additional cabling of instructional spaces, installation of modern telecommunication systems, and the enhancement/upgrade of the wireless environment to meet increasing demand for wireless access and new industry standards. This funding ensured that the DOE continued working towards providing students and educators access to a robust and secure infrastructure for online learning.

The capital funding in this Plan also allowed the DOE to effectively leverage the federal Universal Service Fund (E-Rate) discount program. It was largely due to the DOE's ability to successfully leverage the E-Rate discount program that enabled us to make major strides in building a strong technology infrastructure to date.

In addition, this Plan also invested in various business-oriented initiatives that strengthened the DOE's ability to deliver and support school level operations. The initiatives included the expansion of the point-of-sale system for cafeteria operations, network security and access management, and virtualization solution initiatives for school data/content storage, desktop, and data centers.

## Facility Enhancements

SUMMARY
<b>Final Report</b>
<b>\$704.8 mm</b>
2013 Adopted Amendment
\$691.0 mm

The Facilities Enhancement Program funds facility adjustments that enable changes to instructional spaces. This program complements new capacity investment by ensuring that space already in service is aligned with the goals of meeting demand, improving learning conditions, using resources efficiently, and improving student achievement.

In addition, this program enhances safety and security systems, expands the functional accessibility of facilities, and perform upgrades to science, library, auditorium, bathroom, and physical fitness facilities.

Facility Enhancements Overview		
Program	Final Report	2013 Adopted Amendment
Facility Restructuring	\$224.6 mm	\$200.0 mm
Safety & Security	\$85.9 mm	\$100.2 mm
Science Lab Upgrades	\$92.3 mm	\$90.0 mm
Accessibility	\$75.1 mm	\$75.0 mm
Physical Fitness Upgrades	\$155.0 mm	\$163.1 mm
Library Upgrades	\$13.7 mm	\$11.7 mm
Auditorium Upgrades	\$58.2 mm	\$51.0 mm
<b>TOTAL</b>	<b>\$704.8 mm</b>	<b>\$691.0 mm</b>

## Facility Restructuring

SUMMARY
<b>Final Report</b>
<b>\$224.6 mm</b>
2013 Adopted Amendment
\$200.0 mm

Under this program, restructuring work included:

- Room conversions to support instructional initiatives
- Creation and expansion of school based health centers
- Electrical upgrades to traditionally under-enrolled buildings seeing large increases in utilization rates that tax their electrical systems
- Conversion of defunct shops/extra-large classrooms to create more capacity

## Safety and Security

---

SUMMARY
Final Report
\$85.9 mm
2013 Adopted Amendment
\$100.2 mm

The DOE, in partnership with the New York City Police Department (NYPD) and the Mayor's Office of the Criminal Justice Coordinator (CJC), has implemented a comprehensive strategy to promote and sustain a climate of safety in all New York City public schools. A key component of this strategy is to equip schools with state-of-the-art security technology. Enhancements have been implemented through the FY 2005–2009 and FY 2010–2014 plans in the areas of network-based video surveillance, ID-card access control, radio communications, and metal detection.

The FY2010–2014 Plan focused on expanded deployment of digital video surveillance and ID-card access control. The DOE continued a steady rollout of Internet Protocol Digital Video Surveillance (IPDVS). As of June 30, 2014, the last day of the Plan, this application was successfully implemented in 511 buildings serving 873 schools with a total of 22,633 cameras online. At the conclusion of the plan period, installation had commenced at nearly 100 additional buildings.

The IPDVS application allows authorized school officials to view live and archived camera images directly on their computer stations and provides remote viewing capability to authorized personnel from borough and central offices. Using objective criteria, the DOE, in consultation with NYPD, determines the relative priority (high, medium, or low) of all school buildings for receiving IPDVS. The FY 2005–2009 plan covered the “high priority” sites. During FY2010–2014, the initiative expanded to “medium priority” sites.

The NYC school system has deployed ID-card access control systems since the 1980s. Implementation of the current solution, the Comprehensive Attendance, Administration and Security System (CAASS) began in 2002 and rapidly expanded through the FY 2005–2009 Plan. As of October 2008, the system was installed in 251 buildings serving approximately 400 secondary schools. The DOE issued a solicitation for competitive proposals for managing several functions that are keyed to a secure student identification device, collectively called Common-ID services (CIDS). During 2009, the CIDS evaluation committee reviewed multiple proposals and decided to continue the CAASS application. The solicitation resulted in two contract awards to 1) maintain the current CAASS infrastructure and 2) gradually transition to a next generation solution.

During the 2010–2014 Plan, the CAASS project successfully transitioned to the next generation solution.

The next generation of CAASS is an Application Service Provider (ASP) solution that offers even greater functionality. The ASP solution eliminates the need for local servers in schools. The next generation of CAASS provides the DOE with the capability to control student and visitor access to school buildings and student access to school properties such as libraries, cafeterias, locker rooms, gymnasiums, and classrooms. In addition, the next generation solution offers possible extensions to other services such as student attendance collection, point of service food purchases, and tracking the circulation of assets such as library materials and textbooks.

### ***Science Lab Upgrades***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$92.3 mm</b>
2013 Adopted Amendment
\$90.0 mm

One of our priorities in the 2010–14 Capital Plan was to provide quality instruction in the sciences. In this plan, we focused on ensuring that all high schools had access to the appropriate science facilities within their buildings. The 2015–19 Capital Plan will continue efforts to provide quality instruction in the sciences so that middle schools, where possible, have access to appropriate science facilities.

### ***Accessibility***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$75.1 mm</b>
2013 Adopted Amendment
\$75.0 mm

The DOE strives to offer a physical environment that is accessible for people with mobility impairments or other disabilities. In keeping with prior Plans, the DOE continued the program to provide additional accessible facilities throughout the City. Seventeen buildings were addressed under the accessibility program in this Plan.

## ***Physical Fitness Upgrades and Transportable Classroom Unit Removal***

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$155.0 mm</b>
2013 Adopted Amendment
\$163.1 mm

Partnering with The Trust for Public Land, Out2Play and other non-profit organizations, the DOE leveraged limited resources and supported physical fitness opportunities for our school children.

The PlaNYC open space initiative included funding for the creation of a playground within a ten minute walk of every child. The Parks Department redirected PlaNYC funding to the DOE to upgrade 28 facilities as part of the PlaNYC open space initiative. Eight playgrounds were included in the 2005-2009 Plan and 20 playgrounds were included in the 2010-2014 Plan.

The DOE initiated the removal of select Transportable Classroom Units (TCUs) while upgrading and expanding playground facilities or creating additions. Projects were selected based on the condition of the TCUs, capacity constraints within the area, and the desires of the local school community. Funding to remove all remaining TCUs has been included in the 2015–19 Capital Plan.

<b>Physical Education Upgrades Overview</b>		
<b>Program</b>	<b>Final Report</b>	<b>2013 Adopted Amendment</b>
Athletic Fields	\$40.4 mm	\$28.6 mm
Playground Redevelopment	\$57.2 mm	\$75.2 mm
Swimming Pools	\$18.2 mm	\$13.1 mm
Gymnasium Upgrades	\$39.2 mm	\$46.2 mm
<b>TOTAL</b>	<b>\$155.0 mm</b>	<b>\$163.1 mm</b>

## ***Library Upgrades***

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$13.7 mm</b>
2013 Adopted Amendment
\$11.7 mm

Library Upgrades included work related to refurbishing existing library facilities within schools. School libraries complement New York City public school reforms and provide direct resources to support curriculum, instruction, and specialized efforts geared toward improving student literacy.

## ***Auditorium Upgrades***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$58.2 mm</b>
2013 Adopted Amendment
\$51.0 mm

Auditorium projects included upgrades to stage and auditorium lighting, sound systems, seating, stage curtains, rigging, and the stage. These spaces are an important central gathering place for the school and often serve as a vital community resource for the surrounding neighborhood as well. As such, resources identified in this category were applied strategically to ensure the maximum benefit possible.

## **Mandated Programs**

### ***Introduction***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$2,005.4 mm</b>
2013 Adopted Amendment
\$1,974.7 mm

The improvements detailed in this section addressed existing facility needs for which it was not possible or appropriate to allocate funds by borough, district, or school. This program consisted of two major categories; Remediation/Code Programs and Fixed Programs which included mandated environmental programs, building condition surveys, emergency lighting, code compliance, and insurance.

<b>Mandated Programs Overview</b>		
<b>Program</b>	<b>Final Report</b>	<b>2013 Adopted Amendment</b>
Remediation/Code Programs	\$221.8 mm	\$245.9 mm
Fixed Programs	\$1,783.6 mm	\$1,728.8 mm
<b>TOTAL</b>	<b>\$2,005.4 mm</b>	<b>\$1,974.7 mm</b>

## Remediation/Code Compliance Program

SUMMARY
Final Report
\$221.8 mm
2013 Adopted Amendment
\$245.9 mm

The Remediation/Code Compliance Program included funding to undertake required work in our existing facilities. The specific work included in this program is not directly related to capital projects that are undertaken during this Plan.

Remediation/Code Programs Overview		
Program/Need	Final Report	2013 Adopted Amendment
Asbestos Abatement	\$163.7 mm	\$159.6 mm
Lead Abatement	\$6.1 mm	\$11.3 mm
Emergency Lighting	\$4.1 mm	\$14.6 mm
Code Compliance	\$47.9 mm	\$60.4 mm
<b>TOTAL</b>	<b>\$221.8 mm</b>	<b>\$245.9 mm</b>

## Asbestos Abatement

SUMMARY
Final Report
\$163.7 mm
2013 Adopted Amendment
\$159.6 mm

The DOE's Asbestos Abatement program is federally mandated by the Asbestos Hazard Emergency Response Act (AHERA) of 1986. The Act requires that every public and private school building, Kindergarten–grade 12, be inspected once every three years, with semi-annual surveillance. The location of any asbestos must be documented and a plan developed for the continuous management of the asbestos in the building.

Asbestos abatement removes the potential health hazard presented by airborne asbestos fibers. Asbestos is found most commonly in pipe and boiler insulation, plaster, floor tiles, and spray-on insulation. Only asbestos in a loosely bound or “friable” condition is dangerous and must be removed. Asbestos must be removed from construction areas prior to being disturbed during construction or maintenance activities.

The cost of asbestos abatement is included in the individual project costs for building modernizations and individual interior and exterior upgrades where asbestos is present. This funding category provided for abatement of disturbed asbestos in buildings where no related major capital projects were planned.

## ***Lead Paint Abatement***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$6.1 mm</b>
2013 Adopted Amendment
\$11.3 mm

Lead paint abatement is mandated by U.S. Environmental Protection Agency and the New York City Department of Health and Mental Hygiene (DOHMH) regulations. The targeted population for this program includes Pre-Kindergarten, Kindergarten, day care in schools, special education, and first grade. The SCA continues remediating areas identified by lead inspections and DOHMH referrals.

Lead abatement is included as an integral part of individual capital projects that affect surfaces that may contain lead paint, e.g., window replacement and the removal of paint from exterior walls prior to re-pointing. This proposed funding provides for lead paint abatement in buildings where no related major capital projects are planned.

## ***Emergency Lighting***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$4.1 mm</b>
2013 Adopted Amendment
\$14.6 mm

This category funded the DOE's program to bring all school buildings into compliance with the emergency lighting requirements of Local Law 41/78 (Fire Safety in Places of Public Assembly), and Local Law 16/84 (Fire Safety in Buildings). These laws establish minimum standards for emergency lighting, exit lighting, emergency power and elevator safety and apply retroactively to most school buildings. All school buildings are assessed for compliance with these requirements and necessary upgrades are proposed. When the assessments are completed, documentation showing compliance is filed at the Department of Buildings.

## ***Code Compliance***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$47.9 mm</b>
2013 Adopted Amendment
\$60.4 mm

Similar to emergency lighting, this category is an ongoing program to bring all school buildings into compliance with safety-related regulations. Although many DOE schools are old enough to pre-date the New York City Building Code, code requirements relating to life and fire safety systems apply retroactively so buildings that are not in compliance must be retrofitted accordingly. Local Law 10 (Owners' Inspection of Building Facades) and its successor legislation, Local Law 11, require that the exterior masonry for buildings over a certain height be inspected every five years. If hazardous conditions are discovered during an inspection, a sidewalk shed must be installed immediately and plans developed for the necessary repairs.

Local Law 5 (Fire Safety in High Rise Buildings) mandates the installation of fire alarm systems in buildings over a certain height so that the fire department can override the elevators' operations in the event of an emergency. Other Code-related capital-eligible projects were also included in this category.

## Fixed Programs

Funding included for Fixed Programs was required to successfully execute the 2010–2014 Capital Plan. These efforts are described more fully below.

Fixed Programs Overview		
Program/Need	Final Report	2013 Adopted Amendment
Building Condition Surveys	\$49.4 mm	\$48.7 mm
Wrap-up Insurance	\$619.6 mm	\$514.9 mm
Prior Plan Completion Cost	\$797.8 mm	\$858.6 mm
Emergency, Unspecified and Miscellaneous	\$316.8 mm	\$306.6 mm
<b>TOTAL</b>	<b>\$1,783.6 mm</b>	<b>\$1,728.8 mm</b>

### Building Condition Surveys

SUMMARY
Final Report
\$49.4 mm
2013 Adopted Amendment
\$48.7 mm

Keeping the baseline data of building conditions in school facilities up-to-date is essential to the DOE's ability to program capital improvement projects. BCAS inspections are performed on a yearly basis.

### Wrap-Up Insurance

SUMMARY
Final Report
\$619.6 mm
2013 Adopted Amendment
\$514.9 mm

Since 1990, the SCA has maintained an Owner Controlled Insurance Program (OCIP) that provides insurance coverage for the SCA, contractors, and subcontractors working on SCA projects. Rather than the traditional approach of having each contractor and subcontractor procure its own insurance, the SCA negotiates and purchases coverage for workers compensation and employers liability, general liability, excess liability, and builder's risk. In recent years, the cost of wrap-up insurance has increased significantly.

### ***Prior Plan Completion Cost***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$797.8 mm</b>
2013 Adopted Amendment
\$858.6 mm

Many projects funded in the last Plan (FY 2005–2009) were still in progress during the adopted Five-Year Plan period, and this category accounts for costs associated with completing those projects.

### ***Emergency, Unspecified & Miscellaneous***

---

<b>SUMMARY</b>
<b>Final Report</b>
<b>\$316.8 mm</b>
2013 Adopted Amendment
\$306.6 mm

This lump sum funding allowed the DOE to respond to emergencies and unforeseeable needs without having to divert funds from other projects in the borough or district in which the emergencies occurred. By law, funding in this category cannot exceed five percent of the total estimated cost of the Five Year Plan.

# FINANCING STRATEGY

---

## Capital Plan Funding

Funding Source	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014	Total
City *	1.124	0.923	1.337	1.304	1.094	5.782
State	1.122	0.794	1.243	0.976	0.914	5.049
Federal/Private	0.005	0.007	0.006	0.017	0.117	0.152
<b>Total</b>	<b>\$2.251</b>	<b>\$1.724</b>	<b>\$2.586</b>	<b>\$2.297</b>	<b>\$2.125</b>	<b>\$10.983</b>

Notes: \$ in Billions

\* Includes PlaNYC, Borough President, Mayor, and City Council Funding

The Plan's total appropriation of over \$10.98 billion during its five-year term supported the DOE's goals of improving educational performance and keeping existing facilities in good repair. A breakdown of this total includes:

- 33% for the creation of over 27,200 seats in 56 new facilities with an additional 11 sites added to replace existing facilities.
- 67% toward capital investment in basic facility needs and enhancing school facilities — both system-wide and to support instructional programs at underperforming schools, including improved technology, safety enhancements, and other general improvements to the learning environment.

Funding for this Plan primarily came from the City and State, with additional funding for specific projects from federal programs and privately raised funds.

To complement Plan funding, both City and State elected officials allocated additional capital funds for specific projects at individual schools. These funds were targeted towards the specific schools' needs in areas such as technology, science laboratories, sports/athletic fields, playgrounds, and other quality-of-life facility upgrades/enhancements.
